## HIGHLAND

*A vast area of Scotland, means that whiskies come in many shapes & forms. The northern whiskies are fuller with cereal notes as opposed to the southern whiskies with characteristic notes of fruit & tend to be drier. The Eastern highlands offers a combination of fruitiness of the north with the dryness of the south & the west does it their way with hints of smoke & peat to set its self apart from his neighbours.*

## LOWLAND

*The most gentle of whiskies come from the lowlands, these drams tend to be more delicate & floral. We are starting to see some of the closed distilleries from the Lowlands slowly re open as many were famed for their outstanding qualities, Today some are even starting to look at peat & casks to enhance those softer notes taking these whiskies to a different level.*

Auchentoshan 3 Wood	£15.00
Bladnoch Adela 15yrs Sherry Cask	£24.00

## ISLAY

*Well known as being the powerful whiskies with a lot of peat used to enhance the whiskies. Some use this sparingly to create softer versions with less potency. Some have found a good balance between the peat & sweetness but maybe try one of these whiskies with food cooked on the tandoor to see how that peatiness works with the food.*

Laphroaig 10yr	£12.50
Bruichladdich 2010	£14.00
Lagavulin 16yr	£16.00

## ISLAND & CAMPBELTOWN

*Island whiskies are each to their own varying in characteristics from some have costal expressions with the hints of sea air others heather becomes abundant with hints of smokiness. The terroir of the & shows through in these whiskies where it be from the land sky or earth makes these whiskies truely unique. Campbeltown are often known for their dry pungent whiskies.*

### **REST OF THE WORLD**

50 ml

*The rest of the world has caught onto the world of whiskies either from American with the softer, sweeter style of whiskies or from Japan whether they use their own malt but use Scottish techniques to ensure quality. Then to India whether the local conditions speed up the maturation process as much as 4 times the speed to create stunning whiskies with bags of flavour compare with a single malt to see the difference.*
